NEW GEN-2.0 HTH TIER 1 HEADSET

HEAR AND BE HEARD THE FIRST TIME

The HTH or Hi-Threat Headset is specifically designed to meet the demands and intensity of Tier 1 operators and special operations teams. For over a decade, the HTH has been and continues to be one of our most popular dual ear boom headsets.

TEA offers the HTH in both a Headband (as shown) and Neckband Version. Single and Dual Down Lead versions available.

Depending on your requirement we offer a variety of microphone options to choose from.

UNIVERSAL MOUNTING POST

The new UMS system from TEA easily attaches to most headsets and works with most headbands and helmet attachment mounts.

STATEMENT REGARDING IP 67 CLASSIFICATION FOR TEA HTH HEADSET:

The TEA HTH Headset has been tested according to ANSI/IEC 60529-2004 at an accredited laboratory (Research Institutes of Sweden/RISE).

The following tests have been performed:

- ☑ Test with probe (IP 6X)
- ☑ Dust test (IP 6X)
- ☑ Immersion test (IP X7)

After the tests to the left, functional tests were carried out:

- ☑ Test of the on/off function
- ☑ Test of the volume adjustment, 5 steps between minimum and maximum
- ☑ Test of the sound function to the left and right cap from the AUX-input and from the level dependent, simultaneously.
