

# INVISIO®

## NO NOISE. ONLY YOUR VOICE.

For over a decade INVISIO has developed high performance headsets for Special Forces, SWAT Teams, Law Enforcement and Fire & Rescue teams across the globe to meet their needs in extreme environments. INVISIO offers an extensive range of tactical headsets to equip the professional communication user. INVISIO headsets utilize the patented Bone Conduction Technology™ which offers unsurpassed communication in all environments. Because of the unique voice transfer system, ambient sounds that can interfere during a conversation are eliminated. Wind, military vehicles, even gun fire is not transmitted - only your voice.

### INVISIO® Bone Conduction (BCM) Technology

Extensively fielded and combat proven, INVISIO® patented bone conduction technology captures speech directly from the inner ear via vibrations off the jawbone. This unique technology allows for ultimate speech clarity in high noise applications and even allows for speech underneath O2 or gas masks.

Every INVISIO headset utilizes the Bone Conduction Microphone (BCM) for speech and is available in several different model types.

High Noise  
Hearing Protection

Submersible  
Maritime Applications

Public Safety  
Fire/Police

Hazardous Locations  
HAZMAT/EOD

### INVISIO® Markets and Applications

In professions where people work in teams, the need for communication is often decisive. External factors can make it difficult to hear and to be heard, in situations such as firefighters entering a burning building, police managing a crowd or military forces under attack.

Even within logistics and factory environments, complex processes require good communication between team members. For over a decade, INVISIO has ensured crystal clear communications to these segments of demanding users.

# INVISIO® M-Series Single In-Ear Bone Conduction (BCM) Headsets

## INVISIO® M-Series Overview

INVISIO M-Series headsets are configured to work with both analog and digital radios, can be adapted to work with any standard TEA Push-to-Talk Switch. Key features of all INVISIO® M-Series Headsets include Kevlar woven cables for added durability, unique whisper capability, the ability to work under eye wear/gas masks and also the ability to clearly communicate in high noise environments.

COMPATIBLE WITH GAS MASKS. GREAT FOR HAZMAT.

### INVISIO® M3 Standard Headset

The INVISIO® M3 is our standard and most popular in-ear bone conduction headset. The M3 has a universal design that can fit almost any ear and is available for either right or left ears. **The M3 is rated IP64** which means it can hold up to exposure to rain or moisture.

### INVISIO® M4 Custom Fit Headset

The INVISIO® M4 is an in-ear bone conduction headset that is custom made to fit your exact ear shape. The M4 is made using an exact laser cut impression of your ear, so every contour, ridge and detail of your inner ear is incorporated into the headset, providing you with one of the most comfortable tactical in-ear headsets in the world!

### INVISIO® M3s Submersible Headset

The INVISIO® M3s has been the headset of choice for some of most elite amphibious/maritime teams around the world for more than a decade. The M3s is a fully submersible with an **IP68 rating (down to 20 Meters)** and is available in either Black or Beige colors. The M3s allows for clear communications in and out of the water.

### INVISIO® M4s Custom Sub. Headset

The INVISIO® M4s is our Custom Molded Submersible M-Series Headset. The M4s is a fully submersible with an **IP68 rating (down to 20 Meters)** and is available for either right or left ears. The M4s allows for superior comfort and clear communications in and out of the water.

### INVISIO® M3h Hearing Protection Headset

The INVISIO® M3h provides you clear in-ear communications as well as certified hearing protection. The M3h is designed to work with **Comply Foam Tips** to provide the maximum level of hearing protection. The M3h is available for either right or left ears as well as a special submersible version. Provides Certified Hearing Protection Rating of **29NRR/32SNR**
