

ALTERNATIVE SOLUTIONS

INCIDENT COMMAND PROFESSIONAL IN-EAR-HEADSET

The IC-PRO-IEHT incorporates patented voice capture technology with a low profile comfort fit earbud, which enables users to communicate efficiently and effectively in high noise environments.

- Plug and Play compatibility with the TEA Tactical U94 PTT
- Robust Nexus type connector for a secure fit
- Single Ear configuration for discrete and long term use
- Superior voice quality for loud, soft, and whisper communication
- Comfort foam ear tips (3 sizes provided with each earpiece)

E-SWITCH DUAL PTT

The Dual-Com E-Switch is a highly customizable platform to meet the needs of dual radio or dual device applications. The Dual E-Switch can be configured to work with standard or dual net radios as well as vehicle/aircraft/watercraft ICS. The PTT can also be configured to be a push button or toggle. An auxiliary input port can also be added for connection to remote switches or O2 microphone cables.

TEA HALO PTT

The GEN 2 HALO PTT from TEA provides a contoured fit around your hand and has reinforced strain reliefs at every connection point for increased durability. The HALO PTT holds up to the strain of free fall and still allows for the use of parachute controls/toggles.

RP-7P RING PTT

TEA's Remote Ring PTT (Part No. RP-7P) is a water-proof and rugged switch that wraps around the user's finger even over bulky gloves. We recommend this PTT as an alternative to our HALO PTT for MFF applications as well as maritime or driving applications.
