// TACTICAL HEADSETS AND COMMUNICATION ACCESSORIES // BE HEARD THE FIRST TIME - WHEREVER YOUR OPS TAKE YOU //

TEA HISTORY

A LEGACY OF SETTING THE STANDARD IN TACTICAL COMMUNICATIONS

Founded in 1969, TEA has a long history of providing advanced tactical headsets and communication products to specialized teams within law enforcement and the military. In the early 1980's, TEA designed and developed the first tactical throat mic system (LASH®) for use with military and public safety portable radios. Soon after that TEA began to provide maritime teams the first radio dry bags with fully integrated submersible headsets and push-to-talk switches that revolutionized the way maritime teams could communicate in the water.

TEA was awarded the MICH MARITIME program in 2000, which provided Special Operations Teams within the US Navy and US Marine Corps the ability to use a suite of communication headsets and a universal push-to-talk/control unit with modular cable down leads giving them the ability to interface with an extremely broad range of radios and intercom systems. TEA continues to support modifications and purchases for the MICH MARITIME program.

To this day TEA continues to develop and provide comprehensive communication products and solutions for military special operations forces, law enforcement, public safety and industrial applications. With our motto being "I HEARD YOU THE FIRST TIME" we make sure you can effectively communicate wherever your operations take you!

COMPANY MISSION STATEMENT

The mission of TEA Headsets is to provide our customers with the best communication ancillaries available anywhere in the market today and provide them with the necessary information to make an informed buying decision. At TEA, customers, along with providing the best portfolio of headsets and push-to-talks for today's Military, law enforcement and other government agencies are at the forefront of our business. We provide these with a dedication to the highest quality of customer satisfaction delivered to the finest clientele in the world.

- JEFFREY L. NORMENT, PRESIDENT OF TEA

TRY THEN BUY WITH OUR EVALUATION PROGRAM

If you are considering TEA headsets to outfit a team, we offer a no obligation product evaluation program. (Qualified US Military, Government and Law Enforcement Teams/Units only.)

ENHANCING COMMUNICATIONS AND CAPABILITIES

At TEA we understand that reliable and clear communications can mean the difference between success or failure for your operations. We strive to provide you with high quality communication products that enhance your capabilities and ensure constant operational reliability.

We offer a comprehensive suite of products designed to provide a seamless integration of your communications into easy to use solutions. We excel in our ability to provide you with standard or fully customized solutions to meet or exceed your needs!

RUGGED AND DURABLE

We ensure all of our products can meet or exceed the specifications and requirements needed to operate in the most extreme environments. Products are designed, tested and certified to ensure you have reliable communications wherever your ops take you.

HEARING PROTECTION

TEA offers several products that provide industry leading hearing protection. Our products are fully certified to protect you against harmful levels of noise that can lead to permanent hearing loss.

SUBMERSIBILITY

TEA offers products specifically designed to military standards for submersion. We offer a variety of maritime products for requirements from 1 meter down to 20+ meters.

MULTICOM PRODUCT

These products allow you to simultaneously connect to multiple devices. TEA offers a variety of products that provide this capability. These products can be customized to meet your specific needs.

MILITARY

TEA IS PROUD TO INTRODUCE ANOTHER SYSTEM IN OUR LONG LINE OF RUGGED AND RELIABLE PTT'S.

The new ergonomically designed ARES 2.0 is different than anything you have seen in the past.

Accommodating both Over-the-Ear and In-the-Ear headsets (with single or dual ear buds), the new ARES allows for versatile combinations that will accommodate many needs of today's military and law enforcement personnel.

The ARES 2.0 can also interface to our current portfolio of headsets.

FEATURES

- Single or dual comm capable
- Designed and engineered to MILSTD-810G
- IP67 compliant connectors to protect against environmental conditions
- Compatible with both public safety and military radios
- Compatible with multiple accessories; to include cell phone, remote PTT switch and O2 cable
- Powered by TAM patented Voice Capture Technology
- Features ambient noise amplification and impulse noise protection

INTRODUCING THE CLARUS IN-THE-EAR PUSH-TO-TALK SYSTEM

The Clarus offers premium functionality and capability in the world's smallest and lightest tactical headset system on the market today.

Clarus offers maximum capability and flexibility when two radios or wireless push-to-talk functionality is required. Egressing from SILYNX's highly compact oblique control box, are our proprietary quick disconnect (QDC) in the uplead and download, the operator can connect to SILYNX's range of headsets or others as required on the uplead and to virtually any communications devices on the download.

In addition to accommodating most all headsets and radios in use today, this "smart" system also includes the wireless gateway to connect to our MWPTT or key fob wireless push-to-talk alternatives. CLARUS has been the choice for military and law enforcement officers around the world for nearly a decade.

U94 TACTICAL PUSH-TO-TALK

SINGLE RADIO PTT SOLUTIONS

NOW AVAILABLE
IN TAN

U94 TACTICAL PUSH-TO-TALK

TEA's GEN2 U94 Push-to-Talk switch is one of the most popular PTT's on the market. The U94's rugged and contoured design allow it to be easily affixed onto almost any type of vest or uniform. The removable back clip allows for right or left side wear. To prevent the ingress of water or debris into the input socket, the U94 has a protective boot that seals around the headset connector.

STANDARD U94 IS IP67 - 1 METER SUBMERSIBLE

FOR ADDITIONAL OPTIONS

AUXILIARY INPUT OPTION

TEA U94 Push-to-Talks can be configured to have a ruggedized auxiliary input port, which is recessed to provide a strong seal, for connected secondary devices such as one of TEA's Auxiliary Push-to-Talks or an O2 mask mic. The Auxiliary Input (Part No. MJ-113C) can be put on single or dual U94 versions and features a protective cover when the input is not in use.

COILCORD OPTION

U94 H20

U94 H20 PUSH-TO-TALK

Maritime PTT Cover: This unique cover allows you to discretely key up on land but rigid enough to ensure the PTT doesn't unintentionally transmit when submerged.

Headset Input: The U94 H20 PTT has a proven military grade input socket that was developed specifically for operations above and below the surface. When not in use this PTT features a protection cover to keep debris and salt out of the socket.

Radio Connector: TEA offers a variety of maritime rated radio connectors including right angle connectors.

SUBMERSIBLE
APPLICATIONS

HAZMAT
APPLICATIONS

DUAL U94 CONFIGURATIONS

RADIO + RADIO

This configuration allows you to connect and communicate with two radios simultaneously. Cable lengths can be customized to accommodate where your radios will be located on your load out.

RADIO + ICS

This configuration allows you to connect to a primary radio on COM1 and a vehicle/aircraft/watercraft ICS on COM2. For this configuration, PTT2 can be removed and wired as a pass-through for connecting to on-board PTT's.

RADIO + PHONE

This configuration allows you to connect to a primary radio on COM1 and a mobile phone to COM2. PTT1 keys your connected radio and PTT2 is the answer/end function for your mobile device.

RADIO + TONE

This configuration allows you to connect to a primary radio on COM1 and only has a single down-lead. PTT1 keys your primary radio for voice communications and pressing PTT2 generates tones for a more discrete form of communications.

**CONTACT TEA
FOR ADDITIONAL OPTIONS**

DUAL U94 WITH AUXILIARY INPUT

Similar to the single radio version the Dual U94 can be configured with an auxiliary input for the use of secondary devices/remote PTT's.

When a remote PTT is connected it will key the device connected to COM1/PTT1.

SPECIAL APPLICATION DEVELOPMENT

MODULAR RADIO OR VIC3 VERSION

This special U94 version was developed for a US Army PSD. This version of the U94 has an AP107 connector that connects into the VIC3 ICS when mounted and a lower assembly that's connected to the PRC 148/152 radio for use unmounted.

U94 MILITARY FREE FALL

PUSH-TO-TALK KIT

BE HEARD THE FIRST TIME... **EVEN AT 30,000FT**

SINGLE RADIO

DUAL RADIO

SINGLE/DUAL RADIO USER

TEA's GEN2 U94 Push-to-Talk switch is one of the most popular PTT's on the market. The U94's rugged and contoured design allow it to be easily accommodated onto almost any type of vest or uniform and features a removable back clip that allows for right or left side wear. To prevent the ingress of water or debris into the input socket, the U94 has a protective boot that seals around the headset connector.

The U94 can also be configured to support multiple radios or radio + ICS with our Dual-Com version. This version of the U94 can be configured however you need it to be. Some of our most common configurations include:

Radio + Radio | Radio + Vehicle ICS (VIC3) | Radio + Aircraft ICS | Radio + Mobile Phone

GEN2 U94

DUAL COM U94

MFF TACTICAL PTT KIT

Based off of years of feedback and ongoing development with SFG and MFF units, the U94 + HALO PTT Kit keeps you connected to your comms even at 30,000ft. The U94 PTT has a protective cover over the PTT button which prevents unwanted keying during free fall.

TEA's GEN2 U94 also features a ruggedized auxiliary input port which is recessed to provide a strong seal for connected secondary devices like the remote TEA HALO PTT or O2 mask mic. An alternative PTT option for MFF applications is TEA's T-Switch Remote Palm PTT.

REMOTE **PTT** OPTIONS:

GEN2 TEA HALO PTT
(Part No. SPS-2MP)

INCIDENT COMMAND PROFESSIONAL IN-EAR-HEADSET

The IC-PRO-IEHT incorporates patented voice capture technology with a low profile comfort fit earbud, which enables users to communicate efficiently and effectively in high noise environments.

- Plug and Play compatibility with the TEA Tactical U94 PTT
- Robust Nexus type connector for a secure fit
- Single Ear configuration for discrete and long term use
- Superior voice quality for loud, soft, and whisper communication
- Comfort foam ear tips (3 sizes provided with each earpiece)

MULTICOM CAPABLE
(2 device max)

TEA HALO PTT

The GEN 2 HALO PTT from TEA provides a contoured fit around your hand and has reinforced strain reliefs at every connection point for increased durability. The HALO PTT holds up to the strain of free fall and still allows for the use of parachute controls/toggles.

SUBMERSIBLE APPLICATIONS

HAZMAT APPLICATIONS

RP-7P RING PTT

TEA's Remote Ring PTT (Part No. RP-7P) is a water-proof and rugged switch that wraps around the user's finger even over bulky gloves. We recommend this PTT as an alternative to our HALO PTT for MFF applications as well as maritime or driving applications.

SUBMERSIBLE APPLICATIONS

MULTICOM CAPABLE
(2 device max)

E-SWITCH DUAL PTT

The Dual-Com E-Switch is a highly customizable platform to meet the needs of dual radio or dual device applications. The Dual E-Switch can be configured to work with standard or dual net radios as well as vehicle/aircraft/watercraft ICS. The PTT can also be configured to be a push button or toggle. An auxiliary input port can also be added for connection to remote switches or O2 microphone cables.

MULTICOM CAPABLE
(2 device max)

MARITIME

SAR-M MARITIME HEADSET

Submersible down to 20 meters the SAR-M headset has a legacy of combat proven performance during maritime operations. The SAR-M has a rugged and unique rubber ear shell assembly designed to prevent water from entering the ear. This headset is ideal for water rescue applications.

ADJUSTABLE HEADBAND / STRAP

The SAR-M can accommodate almost any head shape with it's adjustable assembly.

PRODUCT**

RADIO INTEGRATION

TEA has designed and developed a broad range of quick-disconnect adapters for specific radio connectors.

The **ODK-7X-F9** and **ODK-7X-NM** allows the users the ability to dive or swim with their non-submersible radios while leaving the radio ready to use. This allows the user the flexibility to maintain constant communications while operating in a wet environment or transitioning from the water to a waterborne platform or a dry (Land) environment without compromising critical communications.

ODK FOR 7850S RADIO

FEATURES

- Entire system is 20M Submersible

SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone

ODK Bag

- Specially designed for Harris RF-7850S-SPR Radio
- Available in BLACK (P/N: ODK-72-F9) or ALPHA GREEN (Tan), (P/N: ODK 7G-F9)
- 20M dual PTT with clothing clip
 - Can mount to belt or thigh
 - Internal antenna integrator
- Web strapping with locking clips
- Specially designed angled locking zipper to insure the bag is sealed therefore reducing operator error

ODK FOR 7850M RADIO

FEATURES

- Entire system is 20M Submersible

SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone

ODK Bag

- Specially designed for Harris RF-7850M-HH Radio
- Available in BLACK (P/N: ODK-71-NM) or ALPHA GREEN (Tan), (P/N: ODK-7G-NM).
- 20M dual PTT with clothing clip
- Allows for antenna to remain connected to the radio
- Relieve valve for decompression
- Web strapping with locking clips
- Specially designed locking zipper to insure the bag is sealed therefore reducing operator error

ODK-73-P3-RF "MANPACK"

The **ODK-73-P3-RF** allows the users the ability to dive or swim with their non-submersible radios while leaving the radio ready to use. This allows the user the flexibility to maintain constant communications while operating in a wet environment or transitioning from the water to a waterborne platform or a dry (land) environment without compromising critical communications.

FEATURES

- Entire system is 20M Submersible

SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone

ODK Bag

- Right angle AP-136 wired for Manpack radio
- 5"x5" window allows for viewing of radio screen
- Antenna pouch designed to fit manpack antenna with dual locking straps
- Designed to fit 5th to 95th % of male and female population
- Matte black corrosive resistant materials (bag available in Alpha Green)
- Minimum operating life: 500,000 cycles

This rugged connector boasts metal to metal keying for positive alignment, gold-plated contacts, and the engaging nuts have Acme threads for rugged applications and for quick connection. Paired with a knurled exterior around the beyonet for easy hand tightening, this unit makes quick and easy connections a standard operation.

Suitable for a wide range of light and heavy duty applications, including hazardous environments, power transmission, signal telemetry, and ROV.

MKS-NEXGEN-20M

SAR-M MARITIME HEADSET

The SAR-M headset is an extremely lightweight, rugged and submersible headset, Single Ear model with a fully sealed earphone, and a waterproof boom microphone. Submersible to 20 meters. Designed for Low to Medium noise environments providing effective communications in the most demanding maritime environments.

ADJUSTABLE HEAD BAND / STRAP

The SAR-M features a neck band that allows adjustment for a proper fit against the head/neck.

The SAR-M can be accommodated for wear underneath ballistic helmets, dive hoods, hats/caps as well as other head covers.

ULTRA RUGGED BOOM MIC

The SAR-M features an improved submersible boom microphone and earphone for clear communications in or out of the water.

The rigid microphone arm ensures the mic stays in place even when exposed to high winds and crashing waves.

PROVEN SEARCH AND RESCUE APPLICATIONS

Proven during combat operations in sea and air rescue, swimming, diving, jungle, riverine as well as other military maritime and emergency services operations.

20 METER
SUBMERSIBLE

HEADSET DESIGN

The SAR-M's lightweight design keeps the ear unobstructed allowing users to maintain their level of natural hearing. This allows you to maintain awareness of your surroundings and your communications at all times.

LAW ENFORCEMENT

INTRODUCING THE NEW EXTREME TEMPERATURE RSM 500-DEGREE KIT

The TEA IC-PRO-500-KITT consists of a high temperature, ruggedized and waterproof enclosure containing one (1) PTT button, one (1) LED button.

One (1) headset jack, (1) radio cable, and circuitry to support communications via a radio, intercom or another such device.

A single radio/intercom cable is permanently attached. A single ear without ambient microphones completes the kit.

IC-PRO-500-RSMT HIGH-TEMPERATURE SPEAKER MIC

- Functions after 5 minutes in 500°F
- IP67 Rated Housing (Immersion Rated)
- Tactile PTT Button
- Headset Jack for In-Ear Mic Headset
- Clothing Clip with 360-degree rotation

IC-PRO-IEHFT IN-EAR VOICE CAPTURE HEADSET

- Patented In-Ear Voice Capture Technology
- Up to 30dB of Passive Noise Reduction
- Comfort Foam Eartip (multiple sizes)
- Durable & Flexible 200 degree rated cable
- Clear Audio for loud environments

IC-PRO-500-KITT

- The first solution to combine 500°F RSM w/ a high temp In-Ear Voice Capture earpiece
- Integrates with department radios
- Best-In-Class hearing & speaking capabilities
- Enhances comms in Fire & Rescue operations

TEA UHA & SMART PTT COVERT SOLUTIONS FOR MOBILE DEVICES

SHOWN WITH REMOTE
PTT BUTTON OPTION

UHA PUSH-TO-TALK (PTT) CONTROL ADAPTER

TEA's UHA (Universal Headset Adapter) converts standard 3.5mm mobile devices into powerful, Push-To-Talk (PTT) solutions.

- Exclusive UHA adapter enables 2-Way Push-To-Talk communication on mobile phones compatible with industry leading PoC Platforms
- Advanced UHA design has PTT button controls for use with popular headsets from iOS, Android and others
- Innovative UHA PTT platform for familiar 2-way interface for phones
- For undercover users, the operators can use popular headsets to blend into a crowd
- Universally compatible with most 3.5mm mobile phone headsets with a microphone
- Custom configurations available to meet your needs

SHOWN WITH REMOTE
PTT BUTTON OPTION

SMART 2-IN-1 PHONE & PTT IN-EAR HEADSET

Innovative, Smart 2-in-1 Headset combines Call & PTT capabilities for maximum productivity & effectiveness.

- Superior In the Ear Voice Capture system delivers superior voice quality and whisper capability
- Superior Noise Isolation ensures clear sound and protects hearing, optimized for high noise environments
- Advanced design switches to in-ear mic when needed
- Dedicated button controls for call Answer/End and PTT
- Durable, Kevlar-reinforced cable provides 20 pounds of pull strength
- Industrial grade design for all commercial uses
