

NEW GEN-2.0 MPU5 HEADSETS

HEAR AND BE HEARD THE FIRST TIME

The HTH or Hi-Threat Headset is specifically designed to meet the demands and intensity of Tier 1 operators and special operations teams. For over a decade, the HTH has been and continues to be one of our most popular dual ear boom headsets.

TEA offers the HTH in both a Headband (as shown) and Neckband Version. Single and Dual Down Lead versions available.

Depending on your requirement we offer a variety of microphone options to choose from.

STATEMENT REGARDING IP 67 CLASSIFICATION FOR TEA HTH HEADSET:

The TEA HTH Headset has been tested according to ANSI/IEC 60529-2004 at an accredited laboratory (Research Institutes of Sweden/RISE).

The following tests have been performed: After the tests to the left, functional tests were carried out:

- Test with probe (IP 6X)
- Dust test (IP 6X)
- Immersion test (IP X7)
- Test of the on/off function
- Test of the volume adjustment, 5 steps between minimum and maximum
- Test of the sound function to the left and right cap from the AUX-input and from the level dependent, simultaneously.

SAR-M

SAR-M MARITIME HEADSET

The SAR-M headset is an extremely lightweight, rugged and submersible headset, Single Ear model with a fully sealed earphone, and a waterproof boom microphone. Submersible to 20 meters. Designed for Low to Medium noise environments providing effective communications in the most demanding maritime environments.

ADJUSTABLE HEAD BAND / STRAP

The SAR-M features a neck band that allows adjustment for a proper fit against the head/neck.

The SAR-M can be accommodated for wear underneath ballistic helmets, dive hoods, hats/caps as well as other head covers.

PROVEN SEARCH AND RESCUE APPLICATIONS

Proven during combat operations in sea and air rescue, swimming, diving, jungle, riverine as well as other military maritime and emergency services operations.

ULTRA RUGGED BOOM MIC

The SAR-M features an improved submersible boom microphone and earphone for clear communications in or out of the water.

The rigid microphone arm ensures the mic stays in place even when exposed to high winds and crashing waves.

 **20 METER SUBMERSIBLE**
