# TEA HISTORY

## A LEGACY OF SETTING THE STANDARD IN TACTICAL COMMUNICATIONS

Founded in 1969, TEA has a long history of providing advanced tactical headsets and communication products to specialized teams within law enforcement and the military. In the early 1980's, TEA designed and developed the first tactical throat mic system (LASH®) for use with military and public safety portable radios. Soon after that, TEA began to provide maritime teams the first radio dry bags with fully integrated submersible headsets and push-to-talk switches that revolutionized the way maritime teams could communicate in the water.

TEA was awarded the MICH MARITIME program in 2000, which provided Special Operations Teams within the US Navy and US Marine Corps the ability to use a suite of communication headsets and a universal push-to-talk/control unit with modular cable down leads giving them the ability to interface with an extremely broad range of radios and intercom systems. TEA continues to support modifications and purchases for the MICH MARITIME program.

To this day, TEA continues to develop and provide comprehensive communication products and solutions for military special operations forces, law enforcement, public safety, and industrial applications. With our motto being "I HEARD YOU THE FIRST TIME", we make sure you can effectively communicate wherever your operations take you!

## COMPANY MISSION STATEMENT

The mission of TEA Headsets is to provide our customers with the best communication ancillaries available anywhere in the market today and provide them with the necessary information to make an informed buying decision. At TEA, customers, along with providing the best portfolio of headsets and push-to-talks for today's Military, law enforcement and other government agencies are at the forefront of our business. We provide these with a dedication to the highest quality of customer satisfaction delivered to the finest clientele in the world.

#### TRY THEN BUY WITH OUR EVALUATION PROGRAM

If you are considering TEA headsets to outfit a team, we offer a no obligation product evaluation program. (Qualified US Military, Government and Law Enforcement Teams/Units only.)

## ENHANCING COMMUNICATIONS AND CAPABILITIES

At TEA we understand that reliable and clear communications can mean the difference between success or failure for your operations. We strive to provide you with the highest quality communication products that enhance your capabilities and ensure constant operational reliability.

We offer a comprehensive suite of products designed to provide a seamless integration of your communications into easy to use solutions. We excel in our ability to provide you with standard or fully customized solutions to meet or exceed your needs!

### RUGGED AND DURABLE

We ensure all of our products can meet or exceed the specifications and requirements needed to operate in the most extreme environments. Products are designed, tested, and certified to ensure you have reliable communications wherever your ops take you.

### HEARING PROTECTION

TEA offers several products that provide industry leading hearing protection. Our products are fully certified to protect you against harmful levels of noise that can lead to permanent hearing loss.

### SUBMERSIBILITY

TEA offers products specifically designed to military standards for submersion. We offer a variety of maritime products for requirements from 1 meter down to 20+ meters.

### MULTICOM PRODUCT

These products allow you to simultaneously connect to multiple devices. TEA offers a variety of products that provide this capability. These models can be customized to meet your specific needs.

EAR CUP ATTACHMENT CLIP

THUMB SCREW

### HEADBAND TO HELMET IN NO TIME

The HTH Tier 1's low profile headband features an easy to remove velcro headstrap that allows you to retain the assembly for future use. Helmet adapters are available for Team Wendy, Ops-Core, Revision, and other makes and models of helmet rails.

PATENT PENDING

# IC PRO / SAR M

## INCIDENT COMMAND PROFESSIONAL IN-EAR-HEADSET

The IC-PRO-IEHT incorporates patented voice capture technology with a low profile comfort fit earbud, which enables users to communicate efficiently and effectively in high noise environments.

- Plug and Play compatibility with the TEA Tactical U94 PTT
- Robust Nexus type connector for a secure fit
- Single Ear configuration for discrete and long term use
- Superior voice quality for loud, soft, and whisper communication
- Comfort foam ear tips (3 sizes provided with each earpiece)

**MULTICOM CAPABLE**  
(2 device max)

## SAR-M MARITIME HEADSET

Submersible down to 20 meters, the SAR-M headset has a legacy of combat proven performance during maritime operations. The SAR-M has a rugged and unique rubber ear shell assembly designed to prevent water from entering the ear. This headset is ideal for water rescue applications.

*(for more details, see pg 19)*

## ADJUSTABLE HEADBAND / STRAP

The SAR-M can accommodate almost any head shape with its adjustable assembly.

# CLARUS SMART TACTICAL HEADSET SYSTEM

## WORLDS SMALLEST MULTI-COMM PTT

### THE CLARUS IN-THE-EAR PUSH-TO-TALK SYSTEM

The Clarus offers premium functionality and capability in the world's smallest and lightest tactical headset system on the market today.

Clarus offers maximum capability and flexibility when two radios or wireless push-to-talk functionality is required. Egressing from SILYNX's highly compact oblique control box, are our proprietary quick disconnect (QDC) in the uplead and download. These operate and connect to SILYNX's range of headsets or others as required on the uplead and to virtually any communications devices on the download.

In addition to accommodating almost all headsets and radios in use today, this "smart" system also includes the wireless gateway to connect to our MWPTT or key fob wireless push-to-talk alternatives. CLARUS has been the choice for military and law enforcement officers around the world for nearly a decade.

# FORTIS SMART TACTICAL HEADSET SYSTEM

## INTRODUCING FORTIS SMART TACTICAL HEADSET SYSTEM

- Operate up to 3 radios or 4 nets\* simultaneously
- Compatible with in-ear and over-the-ear headsets
- Embedded digital signal processor
- Unique circuitry eliminates crosstalk, ensures secure comms
- Interchangeable with military and civilian radios

FORTIS smart tactical headset system offers tactical operators flexibility and modularity to match their operating profile. Acting as a hub, the FORTIS push-to talk control box offers a two-radio solution with onboard power, and a three-radio/four-channel solution that powers from the radio or an in-line battery option. 20m submersible interface ports connect FORTIS to Silynx's leading in-ear headset or to a variety of headsets from other manufacturers such as over-the ear, acoustic tubes, music earbuds, etc. FORTIS intelligent digital signal processor ensures reliable – and waterproof – connectivity to countless radios, smartphones, intercom systems, mesh radios, and other comm devices.

# TEA UHA & SMART PTT COVERT SOLUTIONS FOR MOBILE DEVICES

SHOWN WITH REMOTE  
PTT BUTTON OPTION

## UHA PUSH-TO-TALK (PTT) CONTROL ADAPTER

TEA's UHA (Universal Headset Adapter) converts standard 3.5mm mobile devices into powerful, Push-To-Talk (PTT) solutions.

- Exclusive UHA adapter enables 2-Way Push-To-Talk communication on mobile phones compatible with industry leading PoC Platforms
- Advanced UHA design has PTT button controls for use with popular headsets from iOS, Android, and others
- Innovative UHA PTT platform for familiar 2-way interface for phones
- For undercover users, the operators can use popular headsets to blend into a crowd
- Universally compatible with most 3.5mm mobile phone headsets with a microphone
- Custom configurations available to meet your needs

SHOWN WITH REMOTE  
PTT BUTTON OPTION

## SMART 2-IN-1 PHONE & PTT IN-EAR HEADSET

Innovative, Smart 2-in-1 Headset combines Call & PTT capabilities for maximum productivity & effectiveness.

- Superior In the Ear Voice Capture system delivers superior voice quality and whisper capability
- Superior Noise Isolation ensures clear sound and protects hearing, optimized for high noise environments
- Advanced design switches to in-ear mic when needed
- Dedicated button controls for call Answer/End and PTT
- Durable, Kevlar-reinforced cable provides 20 pounds of pull strength
- Industrial grade design for all commercial uses

# NEW U94 GEN II

COMING SOON

## U94 GEN II - COMING SOON

The new GEN-II Tactical U94 PTT was designed for today's advanced dual channel radios that operate from VHF to the GHz bands.

The GEN-II Tactical U94 was originally designed as a dual channel platform, but can be configured to accommodate secondary radios, ICS systems, and remote PTT switches.

The GEN-II Tactical U94 incorporates a unique, in-line junction that allows for EUD data throughout.

It also incorporates an exclusive charging circuit to keep your EUD topped off.

# U94 TACTICAL PUSH-TO-TALK

## SINGLE RADIO PTT SOLUTIONS

NOW AVAILABLE  
IN TAN

### U94 TACTICAL PUSH-TO-TALK

TEA's GEN2 U94 Push-to-Talk switch is one of the most popular PTT's on the market. The U94's rugged and contoured design allow it to be easily affixed onto almost any type of vest or uniform. The removable back clip allows for right or left side wear. To prevent the ingress of water or debris into the input socket, the U94 has a protective boot that seals around the headset connector.

STANDARD U94 IS IP67 - 1 METER SUBMERSIBLE

CONTACT TEA  
FOR ADDITIONAL OPTIONS

### AUXILIARY INPUT OPTION

TEA U94 Push-to-Talks can be configured to have a ruggedized auxiliary input port, which is recessed to provide a strong seal, for connected secondary devices such as one of TEA's Auxiliary Push-to-Talks or an O2 mask mic. The Auxiliary Input (Part No. MJ-113C) can be put on single or dual U94 versions and features a protective cover when the input is not in use.

# DUAL RADIO PTT SOLUTIONS

NOW AVAILABLE  
IN TAN

**MARITIME VERSION  
ALSO AVAILABLE**

**CONTACT TEA  
FOR ADDITIONAL OPTIONS**

## DUAL U94 WITH AUXILIARY INPUT

Similar to the single radio version, the Dual U94 can be configured with an auxiliary input for the use of secondary devices/remote PTT's. When a remote PTT is connected, it will key the device connected to COM1/PTT1.

## DUAL U94 CONFIGURATIONS

### RADIO + RADIO

This configuration allows you to connect and communicate with two radios simultaneously. Cable lengths can be customized to accommodate where your radios will be located on your load out.

### RADIO + ICS

This configuration allows you to connect to a primary radio on COM1 and a vehicle/aircraft/watercraft ICS on COM2. For this configuration, PTT2 can be removed and wired as a pass-through for connecting to on-board PTT's.

### RADIO + PHONE

This configuration allows you to connect to a primary radio on COM1 and a mobile phone to COM2. PTT1 keys your connected radio and PTT2 is the answer/end function for your mobile device.

### RADIO + TONE

This configuration allows you to connect to a primary radio on COM1 and only has a single down-lead. PTT1 keys your primary radio for voice communications and pressing PTT2 generates tones for a more discrete form of communications.

## SPECIAL APPLICATION DEVELOPMENT

### MODULAR RADIO OR VIC3 VERSION

This special U94 version was developed for a US Army PSD. This version of the U94 has an AP107 connector that connects into the VIC3 ICS when mounted, and a lower assembly that's connected to the PRC 148/152 radio for use when unmounted.

BE HEARD THE FIRST TIME... **EVEN AT 30,000FT**

### SINGLE/DUAL RADIO USER

TEA's GEN2 U94 Push-to-Talk switch is one of the most popular PTT's on the market. The U94's rugged and contoured design allow it to be easily accommodated onto almost any type of vest or uniform and features a removable back clip that allows for right or left side wear. To prevent the ingress of water or debris into the input socket, the U94 has a protective boot that seals around the headset connector.

The U94 can also be configured to support multiple radios or radio + ICS with our Dual-Com version. This version of the U94 can be configured however you need it to be. Some of our most common configurations include:

**Radio + Radio | Radio + Vehicle ICS (VIC3) | Radio + Aircraft ICS | Radio + Mobile Phone**

The **ODK-7X-9534-F9** and **ODK-7X-9534-NM** allows the users the ability to dive or swim with their non-submersible radios while leaving the radio ready to use. This allows the user the flexibility to maintain constant communications while operating in a wet environment or transitioning from the water to a waterborne platform or a dry (Land) environment without compromising critical communications.

## ODK FOR 7850S RADIO

### FEATURES

- Entire system is 20M Submersible

#### SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
  - 20M earphone
- *For more details, see pg 19*

#### ODK Bag

- Specially designed for Harris RF-7850S-SPR Radio
- Available in BLACK (P/N: ODK-72-9534-F9) or ALPHA GREEN (Tan), (P/N: ODK 7G-9534-F9)
  - 20M dual PTT with clothing clip
    - Can mount to belt or thigh
  - Internal antenna integrator
- Web strapping with locking clips
- Specially designed angled locking zipper to insure the bag is sealed therefore reducing operator error

## ODK FOR 7850M RADIO

### FEATURES

- Entire system is 20M Submersible

#### SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone
- *For more details, see pg 19*

#### ODK Bag

- Specially designed for Harris RF-7850M-HH Radio
- Available in BLACK (P/N: ODK-71-9534-NM) or ALPHA GREEN (Tan), (P/N: ODK-7G-9534-NM).
- 20M dual PTT with clothing clip
- Allows for antenna to remain connected to the radio
- Relief valve for decompression
- Web strapping with locking clips
- Specially designed locking zipper to insure the bag is sealed therefore reducing operator error

## ODK-7X-P3-RF-9534 “MANPACK”

The **ODK-7X-P3-RF-9534** allows the users the ability to dive or swim with their non-submersible radios while leaving the radio ready to use. This allows the user the flexibility to maintain constant communications while operating in a wet environment or transitioning from the water to a waterborne platform or a dry (land) environment without compromising critical communications.

Available in Black and Alpha Green bags.

### FEATURES

- Entire system is 20M Submersible

#### SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone
- *For more details, see pg 19*

#### ODK Bag

- Right angle AP-136 wired for Manpack radio
- 5"x5" window allows for viewing of radio screen
- Antenna pouch designed to fit manpack antenna with dual locking straps
- Designed to fit 5th to 95th PCTL of male and female population
- Matte black corrosive resistant materials
- Minimum operating life: 500,000 cycles

## SAR-M MARITIME HEADSET

The SAR-M headset is an extremely lightweight, rugged and submersible headset, Single Ear model with a fully sealed earphone, and a waterproof boom microphone. Submersible to 20 meters. Designed for Low to Medium noise environments providing effective communications in the most demanding maritime settings.

### ADJUSTABLE HEAD BAND / STRAP

The SAR-M features a neck band that allows adjustment for a proper fit against the head/neck.

The SAR-M can be accommodated for wear underneath ballistic helmets, dive hoods, hats/caps as well as other head covers.

### ULTRA RUGGED BOOM MIC

The SAR-M features an improved submersible boom microphone and earphone for clear communications in or out of the water.

The rigid microphone arm ensures the mic stays in place even when exposed to high winds and crashing waves.

## PROVEN SEARCH AND RESCUE APPLICATIONS

Proven during combat operations in sea and air rescue, swimming, diving, jungle, riverine as well as other military maritime and emergency services operations.

20 METER  
SUBMERSIBLE

### HEADSET DESIGN

The SAR-M's lightweight design keeps the ear unobstructed allowing users to maintain their level of natural hearing. This allows you to maintain awareness of your surroundings and your communications at all times.
