HISTORY AND INTEGRATION

A LEGACY OF SETTING THE STANDARD IN TACTICAL COMMUNICATIONS

Founded in 1969, TEA has a long history of an outstanding reputation with the SOF community, and has been a preferred supplier as well as systems integrator of high quality communications equipment to SOCOM for over 20 years. Concurrently, TEA has proudly provided its line of products to Federal, State, Tribal, and Local Governments for over 50 years.

In 2000, TEA introduced a completely new type of tactical headset platform. Special Operations Forces and SWAT Teams quickly adopted this exciting new in-ear headset technology. Soon after releasing the headset line, TEA was awarded the MICH Maritime Program. This solution provided Special Operations Teams within the U.S. Navy and U.S. Marine Corps the ability to use a suite of communication headsets. The accompanying universal push-to-talk/control unit with modular cable down leads for enabled interfacing with an extremely broad range of radios and intercom systems. TEA continues to support modifications, repairs, and purchases for the MICH Maritime program.

In 2013, TEA was awarded the TCAPS program, which provides operators an in-ear communication headset with certified hearing protection and enhanced electronic hear through as well as a modular PTT for interfacing with the NETT Warrior platform.

TEA is also responsible for introducing the current MCAS and MARSOC systems.

As a prime contractor, TEA also provides overall program management, support, and control in all aspects, earning the top position for offerings of the very best headsets and ancillaries for communications and hearing protection available on the market.

TEA designs, engineers, and integrates our entire catalog and its components. Drawing from the expertise of our team members, TEA has assembled the best-of-breed technical answers to our customers' requirements, ensuring that all components seamlessly work together as specified.

COMPANY PROFILE

TEA is headquartered in a suburban corporate park setting. Departments include: administration, sales, engineering, R&D, shipping/receiving and production lines. Additional facilities incorporate audio testing sections, a fully operational IT network with CRM/CAD software and on-site service/parts departments.

TEA employs full-time employees and has on-call staffing capabilities. Team members include C-Suite, Directors, Senior Management, regional sales offices, marketing/business development, repair technicians, production personnel, as well as an in house Compliance Officer & HR Department.

CAPABILITIES

Assembly, fabrication, and production are performed in-house, as are procurement of items and components from vendors, engineering and systems integration, final inspection, and warehousing. The sale of items via GSA schedule or other Government contracts, shipping, customer service, and service / repairs are routine practices. Additional abilities include but are not limited to: capacity for processing influx/surge orders, rush timetables, special requests, and meeting unforeseen deadlines.

MISSION STATEMENT

The mission of TEA Headsets is to offer our customers the best communication products and ancillaries available anywhere on the market, and provide them with the necessary information to make an informed buying decision. Our customers, along with supplying the best portfolio of headsets and push-to-talks for today's military, law enforcement, and other government agencies are at the forefront of our business. We are committed to delivering and supporting the highest degree of customer service in the processing and handling of all inquiries, information and documentation, and satisfactory delivery of all our products. Our team's devotion and special attention to product quality, durability, and all fulfillment elements contribute to our strong quality reputation within the worldwide Defense Industry.

TRY THEN BUY WITH OUR EVALUATION PROGRAM

If you are considering TEA headsets to outfit a team, we offer a no obligation product evaluation program. (Qualified US Military, Government and Law Enforcement Teams/Units only.)

ENHANCING COMMUNICATIONS AND CAPABILITIES

At TEA we understand that reliable and clear communications can mean the difference between success or failure for your operations. We strive to provide you with the highest quality communication products that enhance your capabilities and ensure constant operational reliability.

We offer a comprehensive suite of products designed to provide a seamless integration of your communications into easy to use solutions. We excel in our ability to provide you with standard or fully customized solutions to meet or exceed your needs!

RUGGED AND DURABLE

We ensure all of our products can meet or exceed the specifications and requirements needed to operate in the most extreme environments. Products are designed, tested, and certified to ensure you have reliable communications wherever your ops take you.

HEARING PROTECTION

TEA offers several products that provide industry leading hearing protection. Our products are fully certified to protect you against harmful levels of noise that can lead to permanent hearing loss.

SUBMERSIBILITY

TEA offers products specifically designed to military standards for submersion. We offer a variety of maritime products for requirements from 1 meter down to 20+ meters.

MULTICOM PRODUCT

These products allow you to simultaneously connect to multiple devices. TEA offers a variety of products that provide this capability. These models can be customized to meet your specific needs.

CLARUS SMART TACTICAL HEADSET SYSTEM

WORLDS SMALLEST MULTI-COMM PTT

THE CLARUS IN-THE-EAR PUSH-TO-TALK SYSTEM

The Clarus offers premium functionality and capability in the world's smallest and lightest tactical headset system on the market today.

Clarus offers maximum capability and flexibility when two radios or wireless push-to-talk functionality is required. Egressing from SILYNX's highly compact oblique control box, are our proprietary quick disconnect (QDC) in the uplead and download. These operate and connect to SILYNX's range of headsets or others as required on the uplead and to virtually any communications devices on the download.

In addition to accommodating almost all headsets and radios in use today, this "smart" system also includes the wireless gateway to connect to our MWPTT or key fob wireless push-to-talk alternatives. CLARUS has been the choice for military and law enforcement officers around the world for nearly a decade.

FORTIS SMART TACTICAL HEADSET SYSTEM

INTRODUCING FORTIS SMART TACTICAL HEADSET SYSTEM

- Operate up to 3 radios or 4 nets* simultaneously
- Compatible with in-ear and over-the-ear headsets
- Embedded digital signal processor
- Unique circuitry eliminates crosstalk, ensures secure comms
- Interchangeable with military and civilian radios

FORTIS smart tactical headset system offers tactical operators flexibility and modularity to match their operating profile. Acting as a hub, the FORTIS push-to talk control box offers a two-radio solution with onboard power, and a three-radio/four-channel solution that powers from the radio or an in-line battery option. 20m submersible interface ports connect FORTIS to Silynx's leading in-ear headset or to a variety of headsets from other manufacturers such as over-the ear, acoustic tubes, music earbuds, etc. FORTIS intelligent digital signal processor ensures reliable – and waterproof – connectivity to countless radios, smartphones, intercom systems, mesh radios, and other comm devices.

TEA UHA & SMART PTT COVERT SOLUTIONS FOR MOBILE DEVICES

SHOWN WITH REMOTE
PTT BUTTON OPTION

UHA PUSH-TO-TALK (PTT) CONTROL ADAPTER

TEA's UHA (Universal Headset Adapter) converts standard 3.5mm mobile devices into powerful, Push-To-Talk (PTT) solutions.

- Exclusive UHA adapter enables 2-Way Push-To-Talk communication on mobile phones compatible with industry leading PoC Platforms
- Advanced UHA design has PTT button controls for use with popular headsets from iOS, Android, and others
- Innovative UHA PTT platform for familiar 2-way interface for phones
- For undercover users, the operators can use popular headsets to blend into a crowd
- Universally compatible with most 3.5mm mobile phone headsets with a microphone
- Custom configurations available to meet your needs

SHOWN WITH REMOTE
PTT BUTTON OPTION

SMART 2-IN-1 PHONE & PTT IN-EAR HEADSET

Innovative, Smart 2-in-1 Headset combines Call & PTT capabilities for maximum productivity & effectiveness.

- Superior In the Ear Voice Capture system delivers superior voice quality and whisper capability
- Superior Noise Isolation ensures clear sound and protects hearing, optimized for high noise environments
- Advanced design switches to in-ear mic when needed
- Dedicated button controls for call Answer/End and PTT
- Durable, Kevlar-reinforced cable provides 20 pounds of pull strength
- Industrial grade design for all commercial uses

TACTICAL PTT SWITCHES

RUGGED AND RELIABLE

GEN-II TACTICAL U94

U94 GEN II

The new GEN-II Tactical U94 PTT was designed for today's advanced dual channel radios that operate from VHF to the GHz bands.

The GEN-II Tactical U94 was originally designed as a dual channel platform, but can be configured to accommodate secondary radios, ICS systems, and remote PTT switches.

The GEN-II Tactical U94 has an available unique, in-line junction that allows for EUD data throughout.

It also incorporates an exclusive charging circuit to keep your EUD topped off.

SINGLE + MULTI-COMM CONFIGURATIONS

- Compatible with multiple headsets
- Unique EUD/KDU/USB compatibilities
- Locking + bailout connectors
- Available Legacy radio adapters

U94 TACTICAL PUSH-TO-TALK

TEA's GEN2 U94 Push-to-Talk switch is one of the most popular PTT's on the market. The U94's rugged and contoured design allow it to be easily affixed onto almost any type of vest or uniform. The removable back clip allows for right or left side wear. To prevent the ingress of water or debris into the input socket, the U94 has a protective boot that seals around the headset connector.

STANDARD U94 IS IP67 - 1 METER SUBMERSIBLE

FOR ADDITIONAL OPTIONS

AUXILIARY INPUT OPTION

TEA U94 Push-to-Talks can be configured to have a ruggedized auxiliary input port, which is recessed to provide a strong seal, for connected secondary devices such as one of TEA's Auxiliary Push-to-Talks or an O2 mask mic. The Auxiliary Input (Part No. MJ-113C) can be put on single or dual U94 versions and features a protective cover when the input is not in use.

DUAL U94 WITH AUXILIARY INPUT

Similar to the single radio version, the Dual U94 can be configured with an auxiliary input for the use of secondary devices/remote PTT's.

When a remote PTT is connected, it will key the device connected to COM1/PTT1.

AUXILIARY
INPUT OPTION

DUAL U94 CONFIGURATIONS

RADIO + RADIO

This configuration allows you to connect and communicate with two radios simultaneously. Cable lengths can be customized to accommodate where your radios will be located on your load out.

RADIO + ICS

This configuration allows you to connect to a primary radio on COM1 and a vehicle/aircraft/watercraft ICS on COM2. For this configuration, PTT2 can be removed and wired as a pass-through for connecting to on-board PTT's.

RADIO + PHONE

This configuration allows you to connect to a primary radio on COM1 and a mobile phone to COM2. PTT1 keys your connected radio and PTT2 is the answer/end function for your mobile device.

RADIO + TONE

This configuration allows you to connect to a primary radio on COM1 and only has a single down-lead. PTT1 keys your primary radio for voice communications and pressing PTT2 generates tones for a more discrete form of communications.

SPECIAL APPLICATION DEVELOPMENT

MODULAR RADIO OR VIC3 VERSION

This special U94 version was developed for a US Army PSD. This version of the U94 has an AP107 connector that connects into the VIC3 ICS when mounted, and a lower assembly that's connected to the PRC 148/152 radio for use when unmounted.

TEA's Push-to-Talk switches are one of the most popular PTT's on the market. The U94's rugged and contoured design allow it to be easily accommodated onto almost any type of vest or uniform and features a removable back clip that allows for right or left side wear. To prevent the ingress of water or debris into the input socket, the U94 has a protective boot that seals around the headset connector.

The U94 can also be configured to support multiple radios or radio + ICS with our Dual-Com version. This version of the U94 can be configured however you need it to be. Some of our most common configurations include:

MFF TACTICAL PTT KIT

Based off of years of feedback and ongoing development with SFG and MFF units, the U94 + H.A.L.O. PTT Kit keeps you connected to your comms even at 30,000ft. The U94 PTT has a protective cover over the PTT button which prevents unwanted keying during free fall.

TEA's U94 also features a ruggedized auxiliary input port which is recessed to provide a strong seal for connected secondary devices like the remote TEA H.A.L.O. PTT or O2 mask mic.

E CASE

ODK FOR 7850 RADIO

The **ODK-7X-9534-F9** and **ODK-7X-9534-NM** allows the users the ability to dive or swim with their non-submersible radios while leaving the radio ready to use. This allows the user the flexibility to maintain constant communications while operating in a wet environment or transitioning from the water to a waterborne platform or a dry (Land) environment without compromising critical communications.

ODK FOR 7850S RADIO

FEATURES

- Entire system is 20M Submersible

SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
 - 20M earphone
- *For more details, see pg 19*

ODK Bag

- Specially designed for Harris RF-7850S-SPR Radio
- Available in BLACK (P/N: ODK-72-9534-F9) or ALPHA GREEN (Tan), (P/N: ODK 7G-9534-F9)
 - 20M dual PTT with clothing clip
 - Can mount to belt or thigh
 - Internal antenna integrator
- Web strapping with locking clips
- Specially designed angled locking zipper to insure the bag is sealed therefore reducing operator error

ODK FOR 7850M RADIO

FEATURES

- Entire system is 20M Submersible

SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone
- *For more details, see pg 19*

ODK Bag

- Specially designed for Harris RF-7850M-HH Radio
- Available in BLACK (P/N: ODK-71-9534-NM) or ALPHA GREEN (Tan), (P/N: ODK-7G-9534-NM).
- 20M dual PTT with clothing clip
- Allows for antenna to remain connected to the radio
- Relief valve for decompression
- Web strapping with locking clips
- Specially designed locking zipper to insure the bag is sealed therefore reducing operator error

ODK-73-P3-RF

ODK-7X-P3-RF-9534 “MANPACK”

The **ODK-7X-P3-RF-9534** allows the users the ability to dive or swim with their non-submersible radios while leaving the radio ready to use. This allows the user the flexibility to maintain constant communications while operating in a wet environment or transitioning from the water to a waterborne platform or a dry (land) environment without compromising critical communications.

Available in Black and Alpha Green bags.

FEATURES

- Entire system is 20M Submersible

SAR-M Headset

- 20M electret microphone
- Microbial mesh headband
- 20M earphone

ODK Bag

- Right angle AP-136 wired for Manpack radio
- 5"x5" window allows for viewing of radio screen
- Antenna pouch designed to fit manpack antenna with dual locking straps
- Designed to fit 5th to 95th PCTL of male and female population
- Matte black corrosive resistant materials
- Minimum operating life: 500,000 cycles

SAR-M

MARITIME HEADSET

**ALL NEW DUAL-EAR
MODEL NOW AVAILABLE**

PROVEN SEARCH AND RESCUE APPLICATIONS

Proven during combat operations in sea and air rescue, swimming, diving, jungle, riverine as well as other military maritime and emergency services operations.

SAR-M MARITIME HEADSET

The SAR-M headset is an extremely lightweight, rugged and submersible headset, Single Ear model with a fully sealed earphone, and a waterproof boom microphone. Submersible to 20 meters. Designed for Low to Medium noise environments providing effective communications in the most demanding maritime settings.

ADJUSTABLE HEAD BAND / STRAP

The SAR-M features a neck band that allows adjustment for a proper fit against the head/neck.

The SAR-M can be accommodated for wear underneath ballistic helmets, dive hoods, hats/caps as well as other head covers.

ULTRA RUGGED BOOM MIC

The SAR-M features an improved submersible boom microphone and earphone for clear communications in or out of the water.

The rigid microphone arm ensures the mic stays in place even when exposed to high winds and crashing waves.

20 METER
SUBMERSIBLE

HEADSET DESIGN

The SAR-M's lightweight design keeps the ear unobstructed allowing users to maintain their level of natural hearing. This allows you to maintain awareness of your surroundings and your communications at all times.

HUNTING & SHOOTING

SUPREME PRO

- Slim cups for left or right-handed shooters
- 600 hours battery life from 2 AAA batteries
- Water proof battery compartment
- Battery warning when 40hr left
- Automatic switch-off saves battery life, 4hr
- Supreme Pro 1.1 update
- SNR: 25dB / NRR 19
- AUX input 3.5mm, cable included

SUPREME PRO-X

- Slim cups for left or right-handed shooters
- Textile Camo Headband
- 600 hours battery life from 2 AAA batteries
- Water proof battery compartment
- Battery warning when 40hr left
- Automatic switch-off saves battery life, 4hr
- Supreme Pro 1.1 update
- SNR: 25dB / NRR 19
- AUX input 3.5mm, cable included
- 5 years warranty

SUPREME PRO-X LED

- Slim cups for left or right-handed shooters
- Textile Camo Headband
- 600 hours battery life from 2 AAA batteries
- Water proof battery compartment
- Battery warning when 40hr left
- Automatic switch-off saves battery life, 4hr
- Supreme Pro 1.1 update
- Integrated LED lamp
- Gel sealing rings
- SNR: 25dB / NRR 19
- AUX input 3.5mm, cable included
- 5 years warranty

Designed for the most rugged environments imaginable, it's the excellent sound reproduction that made SORDIN SUPREME legendary. SORDIN SUPREME owes its superior-quality reputation to a unique set of benefits: safe hearing protection, ambient sound enhancement, extensive communications opportunities, and not least, trustworthiness. It will never let you down, even in the harshest weather or user conditions.

SUPREME PRO-X SLIM

The Supreme Pro-X Slim combines optimum hearing protection with strong amplification of ambient sound. It is equipped with AUX input and a waterproof battery compartment. The slim headband design is based on military standard and fits all head sizes. The Sordin Supreme Pro-X Slim is also available with black or ember cups. The product comes with a comfortable foam sealing cushion as standard.

- ARC-rail compatible (for helmet mounting)
- Level dependent function. Allow you to hear ambient sound like warning signals, moving vehicles and important information and still be protected from hazardous noise
- Waterproof microphones (IP67 tested)
- Amplification of low sounds
- 5 years warranty on the electronic components
- Sound reproduced through the level dependent function is limited to a maximum of 82 dB
- Automatic switch-off after 4hr
- Low level warning when approximately 40hr remains on battery
- Audio input (AUX) for connecting external audio sources
- Lead with 3.5 mm mono jack plug included

PRO-X SERIES – ALL NEW ENHANCED AUDIO SYSTEM WITH 4 SOUND MODES

SUPREME PRO MIL SFA

- Extra attenuation foam and increased cup volume (with distance ring) for higher passive attenuation
- Level dependent function that allows the user to hear ambient sound, such as warning signals, moving vehicles and important information and still be protected from hazardous noise
- The electronic circuits are encapsulated in multiple layers of lacquer and polymer for increased robustness
- Amplification of low sounds
- Sound reproduced through the level dependent function is limited to a maximum of 82 dB
- Automatic switch-off after 4hr, if no button is activated, saves battery life
- Audio input (AUX) for connecting external audio sources
- Low level warning when approximately 40hr remains on battery

SORDIN SUPREME was designed to keep on going where others don't. A genuine robustness intuitively sensed by anyone balancing it in their hands. A slim cup design offering you full freedom of movement, while – remarkably enough – providing excellent hearing protection. The tight feeling over the ears, without compromising with your comfort.

SUPREME PRO MIL AUX

The Supreme MIL AUX Headset provides high noise reduction with a slim design

- Level dependent function that allow you to hear ambient sound like warning signals, moving vehicles and important information and still be protected from hazardous noise
- High amplification and natural sound reproduction without chopping and cutting out
- Waterproof microphones (IP67 tested)
- The electronic circuits are encapsulated in multiple layers of lacquer and polymer for increased robustness
- Amplification of low sounds
- Two loud speakers in each cup, one for surround hearing and one for external audio sources that work even when batteries are out
- Sound reproduced through the level dependent function is limited to a maximum of 82 dB
- Battery save function, low battery warning (40), auto shutdown (4h), battery life time 600h
- Audio input (AUX) for connecting external audio sources. MIL standards MIL-STD-810g and EMC-MIL-STD-461G.
- Additional RFI protection.

NECKBAND

The Supreme MIL AUX is also available in a fold-able Neckband version providing the same high noise reduction with a slim design.

HELMET MOUNTABLE

What places SORDIN SUPREME in a class of its own is its unique audio reproduction. Like most electronic hearing protectors, it uses electronics to compresses noise to a safe level while allowing harmless sounds to pass through the cups on their way to your ears. Only, it does it so much more efficiently and innovatively.

TEA Product Warranty: TEA warrants that all products are free of manufacturing defects in material and workmanship for a period of 1 year. The Warranty is void and inapplicable if the product has been used in a way other than instructed, abused, misused, damaged by accident or neglect or in being transported, or the defect is due to the product being repaired or tampered with by anyone other than TEA or an authorized TEA repair center. TEA provides a full-time repair depot. Contact our Repair Manager about any product in need of repair or modification services, whether under warranty or not. A return authorization (RMA) must be obtained prior to returning any equipment for service. Estimated repair costs and analysis can be provided prior to work being performed. TEA reserves the right to repair or exchange upon inspection of a product under warranty.
